COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

Sir:

While Applicant does not disagree with the Examiner's determination that the inventions recited in the claims are patentable over the references of record, Applicant objects to the reasons for allowance (RFA) as being inaccurate and confusing. For example, the RFA is vague and confusing in its attempt to provide, in one sentence, a statement allegedly applicable to three different sets of independent claims, i.e., claims 1, 5, and 16, which contain different language and define separate inventions. Indeed, each of the claims in this application define separate inventions, which recite different combinations of features, and the basis for the patentability of each claim is based upon the totality of features recited in the claim. The mixing and matching of different claim limitations from different claims renders the RFA vague and indefinite, and possibly subject to interpretations not anticipated by the Examiner or the

Applicant. Moreover, while Applicant believes that the claims are allowable, Applicant does not acquiesce that the patentability resides in each feature exactly as expressed in the claims, nor that each feature is required for patentability of each claim.
